Oregon Universally offered Home Visiting Initiative

What is it?

An initiative to strengthen families by offering a voluntary home visit by a nurse shortly after the birth of every child.

Why?

The birth of a child is a big change for **any** family, and most families welcome and need support of some kind, whether that is an answer to a question about breastfeeding or getting connected to a local community resource.

Connecting all families in need to preventative services is the route to community level change, and a cost-effective investment in long-term population health outcomes.

Goals of the Universally offered Home Visiting Initiative

- ✓ Create and strengthen community level systems of care
 for families of newborns
- ✓ Offer support to all new parents in Oregon (regardless of risk and insurance status)
- ✓ Increase access to community services and supports
- ✓ Promote collaboration and coordination across Oregon's early childhood and home visiting systems
- ✓ Improve health outcomes for families across the life-course

SB 526

SB 526

- Goal: To help families give their children a healthier start in life.
- Consists of 2 mandated components:
 - ✓ Directs OHA to design and implement a voluntary universal statewide home visiting program for families with newborns up to six months of age
 - ✓ It requires commercial health benefit plans to offer this service to their members.
- Oregon will be the first state to offer a universally offered home visiting program for all newborns and their families, including families with adopted or foster newborns.

The Family Connects Model

A newborn population health model and systems building strategy with nurse home visits at the center

Evidence Based

- Completed two randomized control trials and 1 quasi-experimental trial
- Recognized by HRSA/MIECHV as an evidence-based model

University Based

- Ongoing Rigorous evaluations
- Non-competitive and value add focused

The Family Connects Model

Helping all families regardless of income or background

NO COST TO RECIPIENTS

As an eligible recipient, you will not be charged

Visits are scheduled around 3 weeks after a baby's birth

REGISTERED NURSE

All visits are made by highly trained nurses
