- Community Engagement Community of Practice
- Health Equity ECHO w/OHSU-ORPRN - discovery meeting in fall
- CLHO Library

# Survey Modernization

---

- Beginning in 2019, survey modernization included piloting innovative statewide survey methods and collaborating with communities of color and Tribal communities to collect, analyze and contextualize culturally specific data.
- Two sessions planned for health administrators, health officers and staff in November to:
  - Share information about work to date and key findings and lessons.
  - Talk about ongoing survey modernization efforts and future opportunities for state and local data systems.
