

Public health accountability metrics
Indicators and process measures
January 1, 2024

Priority area	Health outcome indicator	Indicator data source	Indicator baseline**	Indicator 2030 goal*	LPHA process measure	LPHA process measure data Source	LPHA process measure 2030 goal	OHA process measure	OHA process measure data source	OHA process measure 2030 goal
Reduce the spread of syphilis and prevent congenital syphilis	Rate of congenital syphilis	Orpheus	93.9/100K live births (2022)	47.0/100K, 50% decrease	1. Percent of congenital syphilis cases averted (OR baseline: 60:0)	Orpheus	10% increase from LPHA baseline	1. Percent of congenital syphilis cases averted (OR baseline: 60.0)	Orpheus	75%
	Rate of syphilis (all stages) among people who can become pregnant	Orpheus	29.7/100K (2022)	26.7/100K, 10% decrease	2. Percent of cases interviewed (67.7)	Orpheus	10% increase	2. Percent of prenatal care providers who report routinely screening all pregnant patients in the early third trimester (OR baseline: 69)	Program reporting	80%
	Rate of primary and secondary syphilis	Orpheus	26.2/100K (2022)	23.6/100K, 15% decrease	3. Percent completion of CDC core variables (84.4)	Orpheus	10% increase	3. Adoption of CCO/health system metrics to promote syphilis screening at three time points in pregnancy (OR baseline: No)	Program reporting	Yes
					4. (Percent completion of core risk variables [57.8])	Orpheus	10% increase			
					5. Percent of cases treated with appropriate regimen within 14 days (74.1)	Orpheus	10% increase			
Protect people from preventable diseases by increasing vaccination rates	Two-year old vaccination rate (4:3:1:3:3:1:4 series)	ALERT IIS	69% (2022)	80%	1. Demonstrated use of data to identify population(s) of focus (required process measure)	New data collection mechanism	Under development	1. Percent of data dashboards and reports updated on schedule (Baseline: not tracked)	Program reporting	Under development
	Adult influenza vaccination rate, ages 65+	ALERT IIS	59% (2022)	70%	2. Demonstrated actions to improve access to influenza vaccination for residents of LTCFs	New data collection mechanism	Under development	2. Percent of required data transfers for CCO incentive metrics completed on time (Baseline: TBD)	Program reporting	100%
					3. Demonstrated actions with health care providers or pharmacists to improve access to vaccination	New data collection mechanism	Under development	3. Percent of VFC clinics that received an IQIP visit at the state and county level in the prior year (Baseline: TBD)	IQIP database	25%
					4 Increase in the percent of health care providers participating in the Immunization Quality Improvement Program (IQIP)	New data collection mechanism	Under development	4. Assure a state vaccine finance model that is sustainable, equitable and adequately funded to provide recommended vaccines to all people in Oregon (Baseline: No)	Program reporting	Yes
					5. Demonstrated outreach and educational activities conducted with community partners	New data collection mechanism	Under development			
Increase community resilience for climate impacts on health: extreme heat and wildfire smoke	Emergency department and urgent care visits due to heat	ESSENCE	Under development	Under development	1. Demonstrated use of data to identify population(s) of interest	New data collection mechanism	Under development	OHA process measures are under development		
	Hospitalizations due to heat	Oregon inpatient hospital discharge data from the Healthcare Cost and Utilization Project (HCUP)	Under development	Under development	2. Demonstrated actions in Communications to oimprove priority area of focus	New data collection mechanism	Under development			
	Heat deaths	Oregon Vital Records, OHA Oregon death certificates	Under development	Under development	3. Demonstrated actions in Policy to improve priority ara of focus	New data collection mechanism	Under development			
	Respiratory (non-infectious) emergency department and urgent care visits	ESSENCE	Under development	Under development	4. Demonstrated actions in Community Partnerships to improve priority area of focus	New data collection mechanism	Under development			
	Developmental: Drinking water secrity	Not applicable	Not applicable	Not applicable	5. Demonstrated actions to integrate climate and health into cross-sectoral or public health planning	New data collection mechanism	Under development			
	Developmental: Mental health effects of climate change	Not applicable	Not applicable	Not applicable						

* In addition to a statewide 2030 goal for indicators, each indicator includes measurement of reduced disparities among racial and ethnic groups so that disparities are eliminated by 2030.

**Items under development will be finalized by February 2024.
